Group Contribution Report

Team Member	Component(s)	Specific Tasks Completed	Testing/Debugging	GitHub Contributions
Om Prakash Mahato	Resource Management, Complexity Analysis and Reservation Management	Worked on resource management and reservation management features. Contributed to the project's complexity analysis and helped coordinate the integration of different components.	Conducted the project's testing and debugging. Tested and debugged Om branch. Checked functionality, identified errors, and helped resolve issues across different components.	Handled the team's GitHub work, including managing branches, committing and pushing changes, pulling updates, and coordinating merges or merge requests.
Akshya Maharjan	Waiting List Management, Cancellation History and Reservation Management	Implemented queue-based waiting list functions to add, remove, and display students. Implemented stack-based cancellation history functions to store, restore, and display cancelled reservations.	Performed testing of waiting-list and cancellation history functions. Tested and debugged Akshya branch. Participated in testing and checking code for errors.	Created and worked on the Akshya branch. Committed and pushed code to GitHub. Participated in pulling changes and merging requests with the team.
Christion Pierre	Reservation Management and Linked List Implementation	Implemented the linked list structure for managing active reservations. Worked on inserting, removing, and displaying active reservations.	Tested and debugged Christion branch. Checked linked list functionality and worked on fixing coding errors.	Contributed coding work to the team's GitHub repository through pushes and shared his progress with the team.

Om Prakash Mahato

Om worked on **Resource Management, Reservation Management, and Complexity Analysis.** He contributed to resource and reservation features and helped prepare the complexity analysis. He performed most of the team's testing and debugging, identifying and fixing coding errors. He also prepared the Complexity Analysis report and managed most of the GitHub activities, including commits, pushes, pulls, branches, and merge requests.

Akshya Maharjan

I worked on **Waiting List Management and Cancellation History**. I implemented queue functions to add, remove, and display students, along with stack functions to store, restore, and display cancelled reservations. I also helped debug Reservation Management and performed basic testing of my code. I contributed to GitHub by creating a branch, committing and pushing my files, pulling changes, and in merging and merge requests. I also prepared the Group Contribution Report by documenting each team member's responsibilities, completed tasks, testing, and GitHub contributions.

Christion Pierre

Christion worked on **Reservation Management and Linked List Implementation.** He implemented functions to insert, remove, and display active reservations using a linked list. He tested and debugged his code to identify and fix errors. He also contributed to the team's GitHub repository by pushing his coding work and sharing his changes with the team.
